**CLASS- 3<sup>rd</sup>**

Read the passage given below and answer the questions that follows: -

Turtles are reptiles that live on land and in water. They are known for their hard shells, which protect them from predators. There are many types of turtles, such as box turtles, snapping turtles, and sea turtles. Turtles are slow-moving animals and can live for a very long time. Some species of turtles can live for over 100 years! Turtles are also good swimmers and can hold their breath underwater for long periods of time. Turtles are herbivores, which means they only eat plants. They eat leaves, flowers, and fruits.
